**Centsables®**  
**SUDOKU**  
**LEVEL 1**  
**INSTRUCTIONS**

*Sudoku means 'single number' in Japanese.*

*There are four boxes in this sudoku puzzle, each of which contains four small squares.*

*Can you figure out where to write the numbers 1 through 4 in each box?*

*Here's the puzzle: you must place those numbers into the small squares so that each number appears only once in any row across, or column down.*

*The numbers which are already in the puzzle will serve as your guide.*

*Remember, numbers can't be repeated in the 2 x 2 box, in the 4 small boxes across or the 4 small boxes down.*

*Good luck!*
